Bryanism Sustained by Fraud. The disclosures coming from some of the Southern States are calcutated to be decidedty embarrassing for Bryan. While he is trying to make it appear that a man buried under an adverse popular majority of over a million votes is really the choice of the people, evidence is at band to show that meagre as were he results of his canvass a considerable number of the votes with which he is credited were deliberately stolen from the Republicans. We have already referred to the State of Virginia where Democrats as well as Republicans declare that it was only by barefaced robbery that the Popocrats prevented the electoral vote of the State from going to The tame is true of Tennessee. The

correspondent of the New York Sun has been investigating the situation in that State and says: "There is no possible doubt that had there been a fair election in Landerdale, Fayette, Shelby, Madison, Tipton and Haywood counties, he (Bryan) would not have carried the State." The evidence of this fraud is so clear that in some instances the Popocratic rascals have weakened, fearing prosecution, and have declined to send n the fraudulent returns. The New York Evening Post also has a report of the outrages perpetrated in Tennessee, and publishes a letter from a Palmer Democrat in which he says: "There were many irregularities and gross frauds enough to make an borest man hang his head in shame." Another Dem-ocrat referring to the Congressional fight in Patterson's district writes: "The whole machinery of the party was un-scrupulously turned against Patterson. On the face of the returns his competi-tor has a majority of a little more than 280 votes, and this was the result of the most transparent and bongling frauds State. Patterson would have no difficulty in showing that he received at least 2,000 votes more than his competitor, and that perhaps 2,500 other voters were prevented by fraud and trickers from casting their ballots."

Couple these disgraceful disclosures with the fact that Bryan was overwith the fact time Bryan was over whelmingly defeated in spite of the frauds committed in his behalf and the BALLS, RUGBY, YOUTH'S RUGhimself before the country as the candidate of the people becomes painfully ap-CANVAS PANTS AND JACKETS. parent. The great majority of the pecple are bonest, but there was nothing hon-STRIKING BAGS AND est about the cause represented by Bryan and it seems that the canvass conducted in his behalf was in keeping with the INDIAN CLUBS AND DUMB BELLS cause. The most sensible thing be can do is to allow bitaself to be forgotten as toon as possible.

Sovereign's Insult to Labor. The best stroke of work organized la bor can perform is to get rid of such blatant demagogues as James R. Sovereign. Every honest wage-carner will resent the insult to the labor vote contained in the barangue delivered by this fellow Wednesday. He is a chesp agitator and believes in agitation simply because it affords bim an easy way of getting a living. His natural place is in the ranks of the followers of Altgeld, Deba and Tillman rather than among actual wage-corpers. Sovereign states that he regards Altgeld "as one of the finest types of American manhood in the counry," Altgeld the man who proposed to pay labor in fifty cent silver dollars hile at the same time he demanded that his own rents should be paid in "gold coin" and inserted a "gold clause" ic all of his leases. The origin of Railways.

The origin of railways has been traced to a contriv action simplifying the transit of coal from the function mines to the pinces of ship out. The invention consisted of a doalle parallel line of wooden beams, or train a, fixed to the ground and furnished with Hanges to prayent the wheels of the ears from slipping aside. The metive power was furnished by forces. The date at which those reads were first need in statiown as between 1822 and 1649.
